UPF Rating:

GOOD

A blend of Cool Dry® and nano-scale silver yarn treated thread, SilverTech® takes feeling fresh to a new level. One of the oldest anti-bacterials known to man, silver fights odour from inside each thread of the fabric. And because it's nano-scale yarn treatment, it won't wash out – keeping you fresher for the life of the garment.

Stencil Cool Dry® products were introduced into the Australian market in 2002. The fabric we select is a high quality yarn, treated to give it a long-lasting cool dry effect. It has a very soft and silky texture and is manufactured using the latest technology. Cool Dry® is a registered trade mark.
