UPF Rating:

EXCELLENT
(50+)

Produced using an ecofriendly manufacturing process, the Eco-Thread® Collection blends plant cellulose with classic natural fabrics. Super soft and kind to sensitive skin.

Stencil Cool Dry® products were introduced into the Australian market in 2002. The fabric we select is a high quality yarn, treated to give it a long-lasting cool dry effect. It has a very soft and silky texture and is manufactured using the latest technology. Cool Dry® is a registered trade mark.

Stain resistant with a 50+ UPF rating, Clime-Dri® shirts offer the same cool wearing as Cool Dry® garments. A soft, silky touch and completely comfortable.
